“TIS THE SEASON FOR LOOKING GLAM!

Ken Picton Salon has just been named Wales & South West Hairdresser of the Year for the fifth time, and Art Director Zoe Williams has got some top tips and tricks to add some festive fun to your look for your Christmas parties this year.

First up - it's crimping! We've all gone crazy for the new GHD contour crimper in the salon. This handy tool can help you achieve so many looks, from exaggerated volume by just using them all over the roots of your hair for a real boost, to crimping the whole mid lengths and ends of your hair to give a wild contrast to a super sleek ponytail.

My other top tip would be gel, my personal favourite being L'Oreal Professionnel's Wet Domination Extreme Splash. A few pumps of this applied with a tint brush can transform your look. Add to wet hair, put in a middle parting, comb and secure for a perfectly smooth ponytail or chignon. Soft Hollywood waves can be given a dramatic edge by painting gel onto a deep side parting. And if you think the glitter roots trend is just for festival season, try adding some gold glitter to the gel for a festive party twist!

Don't forget hair health - it's a tough time of year with extra stresses from the weather, heat styling and central heating and you don't want to hit January needing to detox your hair as well as your liver! Always use a heat protection product, replace conditioner with a deep treatment masque once a week and if you don't already, think about adding an oil or serum to your haircare routine as they really help protect dry hair in colder weather.
